

CYMRU KITCHENS

We'll fit... where others can't!

WHO WE ARE

At Cymru Kitchens we design, hand build and hand paint, beautiful bespoke kitchens, bedrooms and studies. Our philosophy is to create contemporary, stylish rooms that suit you and your lifestyle. Since our establishment in 1989, we have designed, crafted and installed over 8,000 dream refurbishments.

We understand that in today's world, the kitchen is one of the most important spaces in any household. We will give you the space that you have always dreamed of.

When it comes to design, our clients are at the heart of the project. We will visit your home to discuss the way you want to live, how you cook, the space you need, and the finish you have in mind. We will help you refine your specification by showing you clever solutions amongst our extensive portfolio. We will design every aspect to suit your needs, space and wishes to create your dream kitchen, bedroom, study or laundry room.

Brothers-in-law; William Fox and Paul Hogan established the business in 1989. By building in this way, the quality of our craftsmanship and attention to detail is guaranteed, ensuring that you have an exceptional new space, that you will love for years to come.

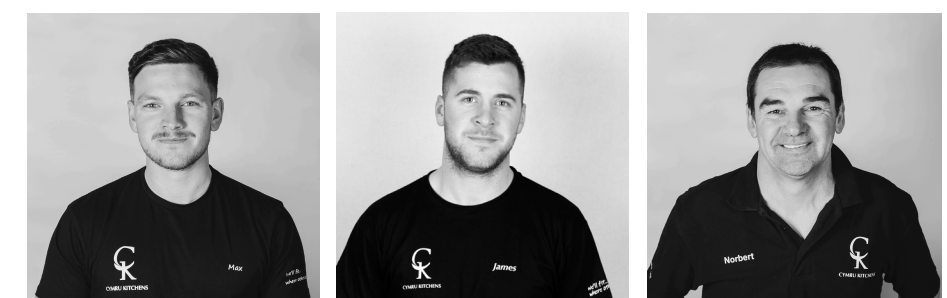

HOW WE WORK

Once we've received your enquiry, our Sales Director William will contact you to discuss your project. If you decide that Cymru Kitchens offers the right solution for you, William will arrange a design consultation.

When you're happy with the design and cost detail, sit back and let us do the work. Before your room set is manufactured, a survey will be carried out with William and your Lead Installer. Responsibility for the build will then become the Lead Installer's.

Your Lead Installer then communicates with Paul and the Build Team in our workshop and our Operations Manager, Connie, who will put together an anticipated schedule of works and timings. They will communicate throughout the work, and arrange for Paul to carry out a final on site inspection towards the end of your project to carry out any snagging that may be required.

OUR PRODUCTION AND INSTALLATION TEAM

WHAT WE COST

Naturally we are often asked “how much does a hand built Cymru Kitchen cost?”. A difficult question to give a straight answer to as each of our solutions are unique. Where possible, we will also try to work with a clients’ budget.

Appliances, ancillary works, electrical and plumbing etc, will naturally bump the cost up, but unlike most other companies, Cymru Kitchens will organise and manage these Trades if you so wish.

Typically a hand built, hand painted kitchen including cabinetry, work surfaces and dry installation will start between £25,000 + £30,000.

Bespoke bedrooms and studies, typically start at around £12,500.

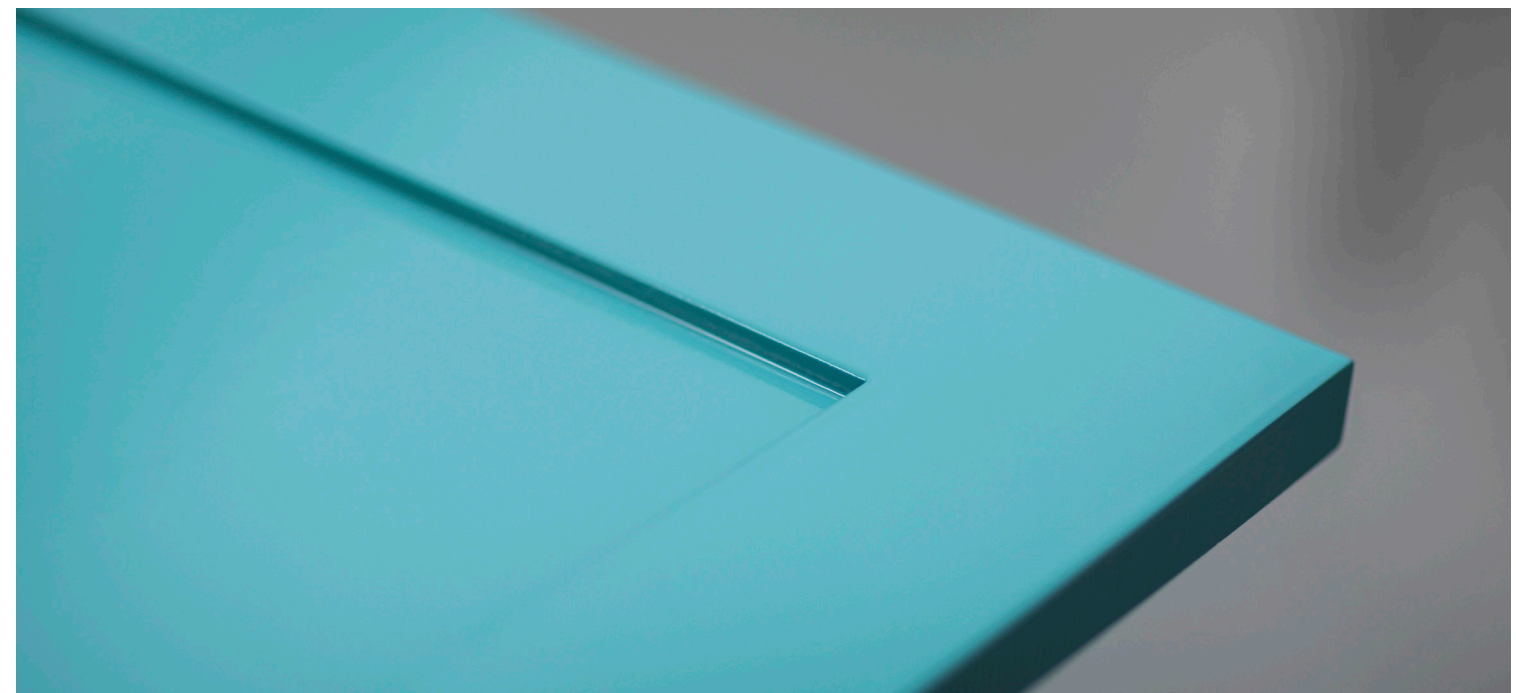

OUR WORKSHOP AND PAINT SHOP

We hand make and hand paint our furniture in our workshop in Newport, South Wales. Meaning that there really are no limitations in achieving your dream kitchen, bedroom or study.

In our paint shop we hand spray and hand paint all of your furniture. This guarantees a superior, hard wearing and long lasting finish. Our expert painters will also come to your home and hand paint all your furniture *in situ*, at the end of your works.

By building in this way, we are able to deliver a 'future proof' solution - no de-laminating or peeling doors. If you want a colour change or are thinking of selling your home? Just repaint and refresh to resell. It really is that simple!

KITCHEN PORTFOLIO

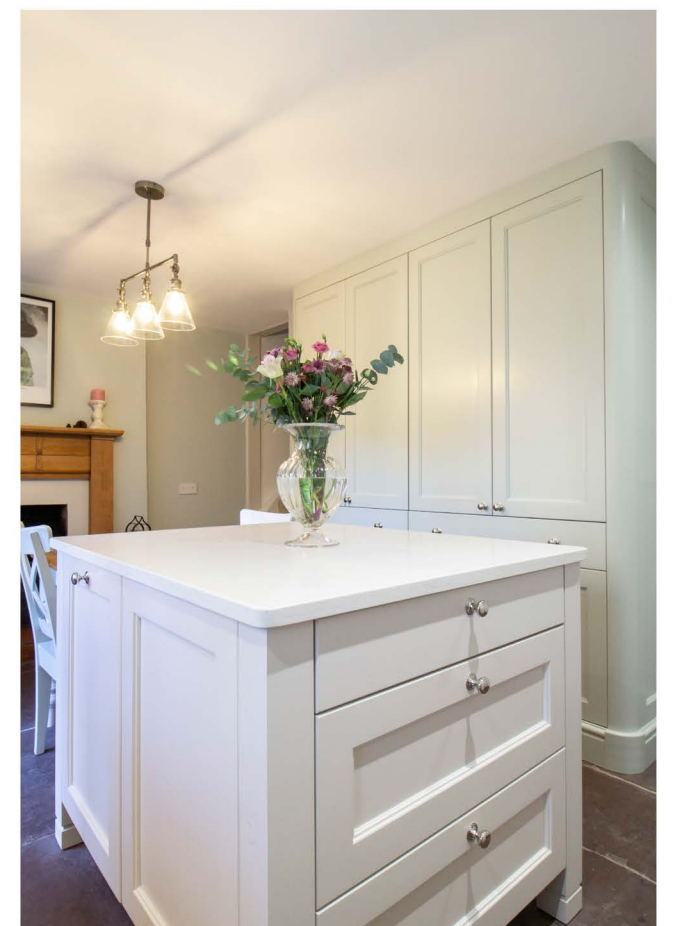

“We just wanted to drop you both a message to thank you once again for a brilliant job on our kitchen. I love the new house already but the kitchen has made it for me. It’s everything I could ever dream of. Thank you William for making the design so workable and having the ‘wow factor’ we were looking for. Paul thank you for making it all happen and resolving the inevitable issues quickly and efficiently. You have already had some good PR as everyone wants to know who did the kitchen. Thanks again.”

BESPOKE FEATURES

LAUNDRY ROOMS

“Having been looking for someone who could translate our thoughts and ideas for a new kitchen onto paper, for at least a year, we are so very glad that we 'took a punt', and contacted Cymru Kitchens. Your sheer enthusiasm and breadth of imagination took us beyond what we had previously wanted, with the result that we feel we now have a space that provides us with much more than a kitchen alone.”

Mr & Mrs Thomas

BEDROOMS, STUDIES AND LIBRARIES

“We have just had an amazing kitchen designed and installed by Cymru Kitchens. It was difficult to design as it was a completely new space, due to a large extension, but the process was made enjoyable by William with his years of experience in kitchen design, giving us ideas and listening to what we wanted. The installation was difficult, working around builders and flooring people, but eventually it went in with few problems. We have ended up with a stylish kitchen which all of our visitors are impressed by. We are a pair of very happy customers and would recommend Cymru Kitchens to anyone wishing for a high quality, bespoke kitchen.”
